Asthma Basics

for Schools

Did you know:

- **Asthma** causes 14 million missed school days per year in the U.S.
- More than 30,000 children in the Milwaukee area deal with **asthma** everyday.
- **Asthma** is the No. 1 reason kids are admitted to Children's Hospital of Wisconsin.

Asthma Basics for Schools is a **free one-hour program** from **Fight Asthma Milwaukee Allies** that is held right at your school. The program gives you the tools you need to identify, minimize and prevent asthma crises in school. The class will teach:

- How to recognize and respond to asthma signs and symptoms.
- How to ensure healthy environments by minimizing asthma triggers.
- How medicines work and how to monitor a student's use of medicines.
