

GREEN CLEANING

WITH

BAKING SODA

Environmentally harmless

Absorbs odors

Doesn't scratch surfaces

Combats grease and Acid

GREAT FOR:

Any surface that requires scrubbing!

- Soap scum in bathtubs and sinks
- Toilets
- Mineral build-up around water fixtures
- Tile and Gout

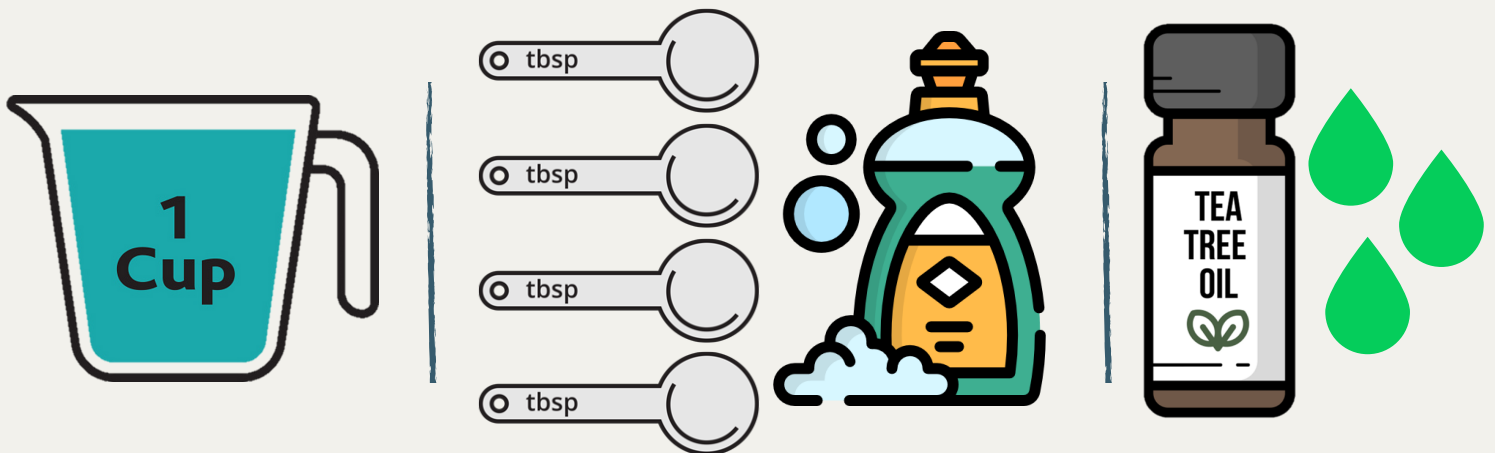

Here is an Asthma-friendly recipe!

01 INGREDIENTS

In a large container, combine:

- 16 oz Baking Soda
- 1 cup of warm water
- 4 Tablespoons of liquid soap
- For extra mold cleaning power, add 2-3 drops of tea tree oil

02 APPLY THE PASTE

Scrub the paste into the mold and mildew

Let it sit for 30 minutes!

03 WIPE CLEAN

This recipe will clean the mold, but if the water source is not corrected, the mold will come back!
